CALL FOR ABSTRACTS

The Scientific Committee of ISA 2024 Oman is pleased to announce it is now accepting abstracts for the 20th International Symposium on Atherosclerosis, which will take place December 4-6, 2024.

Following the theme “Towards Prevention of Cardiometabolic Diseases through Precision Medicine,” the international congress will highlight how precision medicine can be used in the prevention, detection, and management of cardiometabolic diseases, including atherosclerosis.

The Scientific Committee will make the final decision regarding the acceptance of abstracts for presentation, the form of presentation (oral or poster), and will determine the presentation schedule.

Don’t miss this opportunity to present your research in Muscat, Oman.

Submit Abstracts
